

Lil Rippa 150 - 3l/s at 6m

Wastewater - Submersible Grinder

Introducing the reliable and cost-effective Lil Rippa range of grinder pumps. The Lil Rippa utilizes semi open channel Impeller technology to pass the most stubborn rags or stringy material. It is compact and light with a performance curve well suited for most small lift stations. The Lil Rippa range is proudly Australian owned and tested for our conditions.

- ✓ National back up and support
- ✓ Easy to Install
- ✓ Reduced blockages and callouts
- ✓ Australian owned brand

PUMP		Material
	Pump Housing	Cast Iron
	Impeller	Cast Iron
	Shaft Seal	Ceramic Carbon
	Seal	Synthetic Rubber
	Bearings	High carbon chrome steel
	Power Cord	SOW/SOOW (CE model H07RN-F)
PUMP		Design Features
	Impeller	Semi open non clogging
	Bearings	Ball bearing upper/lower
	Power Cord Length	10m (33') standard
MOTOR		
	Motor Housing	Stainless Steel
	Type	MFD
	RPM	3000
	Rotor	AlSI 416 stainless steel
	AMPS	7amp
	Pump Weight	22kg
	Protection Class	IP68
	Cooling	Medium cooled
	Maximum Fluid Temperature	40°C (104°F)
	Discharge Size	1-1/4" NPT
	Max. Submersion Depth	6m (20')
	Hardware	Stainless steel
	Cutter/Cutter Plate	Cast Iron
